

## Production Engineer

At STAR, we specialize in the custom design and manufacturing of physical experiences. Our clients' needs range from exhibits, retail and corporate environments, and branded events. Wherever a brand lives, STAR is there to make it shine.

At this time, STAR has an open position for a Production Engineer (*full-time, exempt*). This role plays a critical role in partnering across the business to see projects through from launch to completion, on time and within budget.

The responsibilities of this position include, but are not limited to:

- Manage the planning, organization, documentation, estimates and tasks of projects in partnership with Project Management
- Provide work direction and guidance to CAD Technician, Lead Builder, Production Manager and Graphic Project Manager as needed
- Complete AutoCAD renderings (technical, graphic, CNC and service) for assigned projects in a timely manner
- Provide cost estimates for new and existing business proposals
- Complete daily reporting responsibilities

The ideal candidate for this job will possess a collaborative spirit, a commitment to exceeding client expectations, fanatical attention to detail, and an exceptional ability to manage assigned tasks and timelines.

Qualifications:

- 2 year degree in drafting / design
- 4+ years of experience in drafting and project management (experience in retail, tradeshow or cabinetry strongly preferred)
- Software proficiency (AutoCAD, MS Office, internet)
- Willingness and ability to work beyond 40 hours per week during peak periods to ensure client needs are met

STAR offers a competitive salary and full benefits in an engaging and collaborative work environment. Qualified candidates committed to making a strong impact in a thriving organization are encouraged to submit a resume and salary history via email to [hr@engagestar.com](mailto:hr@engagestar.com) or by mail to STAR, Attn: Human Resources, 6688 93rd Avenue North, Minneapolis, MN 55445. STAR is an equal opportunity employer.
