

CAD Engineer

At STAR, we specialize in the custom design and manufacturing of physical experiences. Our clients' needs range from exhibits, retail and corporate environments, and branded events. Wherever a brand lives, STAR is there to make it shine.

At this time, STAR has an open position for a CAD Engineer (*full-time, exempt*). This role plays a critical role in drawing and detailing client projects to ensure a successful transition to our production team.

The responsibilities of this position include, but are not limited to:

- Draw and detail client projects in Auto-CAD to create technical shop, CNC and set-up/installation drawings.
- Follow STAR process to ensure timely and successful transition of drawings to the production team
- Provide recommendations for the standardization of drawing standards and archiving job information
- Use STAR systems to ensure successful flow of job information, updates and time entry

The ideal candidate for this job will possess a collaborative spirit, a commitment to exceeding client expectations, fanatical attention to detail, and an exceptional ability to manage assigned tasks and timelines.

Ideal candidates will have:

- 3+ years of extensive drawing/drafting experience in retail, tradeshow or cabinetry
- 2-year design degree, preferred
- Advanced AutoCAD skills that include 3D modeling and MS office proficiency
- Ability to work within tight timelines with accuracy and efficiency
- Willingness and ability to work beyond 40 hours per week during peak periods to ensure client needs are met

STAR offers a competitive salary and full benefits in an engaging and collaborative work environment. Qualified candidates committed to making a strong impact in a thriving organization are encouraged to submit a resume via email to hr@engagestar.com or by mail to STAR, Attn: Human Resources, 6688 93rd Avenue North, Minneapolis, MN 55445. STAR is an equal opportunity employer.
