CNC Programmer

At STAR, we specialize in the custom design and manufacturing of physical experiences. Our clients' needs range from exhibits, retail and corporate environments, and branded events. Wherever a brand lives, STAR is there to make it shine.

At this time, STAR has an open position for a CNC Programmer *(full-time, non-exempt)*. This role plays a critical role in ensuring that our clients' projects are executed above expectations.

The responsibilities of this position include, but are not limited to:

- Ability to work in AutoCAD files and Alpha Cam programming software
- Calculate cut sheets for fabrication and posting of inventory
- Cutting, machining and assembly of components
- Coordinate maintenance (sharpening, ordering of tooling, daily maintenance)
- Maintain accurate records for tracking, inventory and waste management
- AutoCAD drafting experience

The ideal candidate for this job will possess a collaborative spirit, a commitment to exceeding client expectations, fanatical attention to detail, and an exceptional ability to manage assigned tasks and timelines.

Qualifications:

- 2+ years of experience programming in Alpha Cam (tradeshow and retail fixture experience preferred).
- Experience operating a Northwoods CNC machine (preferred)
- 2 year degree in cabinet making/woodworking (preferred)

STAR offers a competitive salary and full benefits in an engaging and collaborative work environment. Qualified candidates committed to making a strong impact in a thriving organization are encouraged to submit a resume and salary history via email to hr@engagestar.com or by mail to STAR, Attn: Human Resources, 6688 93rd Avenue North, Minneapolis, MN 55445. STAR is an equal opportunity employer.
